

# Grow your business with a best-in-class OMS, providing unmatched service to your clients

Itiviti's Order Management is used by more than 10,000 sales-traders worldwide, enabling access to 800+ buy-sides, 150+ venues, and over 700+ brokers globally. Itiviti's fully hosted and managed solution empowers sell sides to take advantage of the ever-changing market structure and regulation while reducing the total cost of ownership. The comprehensive built-in trading workflows help you generate revenue while ensuring Best Execution for your clients, transparent audit trails, and meeting your regulatory obligations.

### **Complete Multi-Asset Order Management Functionality**

- Facilitate trading for equities, listed derivatives and fixed income within a single fully integrated platform
- Support for both high and low touch offerings across all asset classes with the ability to adjust trading style real-time
- Liquidity maximization tools such as pro-active crossing alerts, as well as the ability to publish IOIs and RFQ's
- Configurable alerting functionality with the ability to act directly from the alert.
- Position management
- Tailor screens and customize actions to react faster to opportunities or critical situations.

### **Extensive Buyside and market side connectivity**

- Connectivity to over 200+ venues including all major exchanges, Brokers and SI's, combining lit and dark market access with IOI & crossing detection to source the best liquidity.
- One of the largest Order Routing Network
- Reduce the time to onboard clients and start capturing orders without delay.

### **Innovative Exception-based middle-office solution**

- Exception based workflow generation with centralized monitoring dashboard and full audit trail
- Support for all major allocation/confirmation workflows e.g NY Fix Match, Omgeo, Traiana, Flat files
- Extensive customization offerings to allow clients to profile key information such as commission schedules, booking, and aggregation and achieve greater STP

### **Fully Flexible Compliance and Regulatory Risk offering**

- Fully compliant with local and regional regulations such as MIFID II, CAT, and RegNMS
- Ability to efficiently adjust to ongoing changes within the regulatory environment
- Consolidated global pre-trade risk solution for equities, fixed income, futures, and options in one centralized solution
